RE: Tony Ray Laundry  
5601 N. Keystone Avenue  
Indianapolis, Indiana 46220

Request for Information Pursuant to Section 104(c) of CERCLA regarding the Keystone Corridor Ground Water Contamination Site located in Indianapolis, Marion County, Indiana  
CERCLIS ID No: INN000510399

Dear Ms. Blake:

This is in response to your request for information contained in your correspondence dated July 25, 2014. The answers to the questions included on Enclosure 6 are shown below.

1. From February 2004 to the present, I owned and operated a coin operated laundry situated at the Site (5601 N. Keystone Avenue). At the time I began operating at the Site (e.g. 5601 N. Keystone Avenue), I neither knew or had reason to know that any hazardous substance was, or had been, disposed of on or at the Site (5601 N. Keystone Avenue). I did not undertake any investigation prior to operating the business at the Site (5601 N. Keystone Avenue).
2. The nature of the business conducted at the Site (5601 N. Keystone Avenue) is that of a coin operated laundry. During the period February 2004 to September 2010, I received and stored Tetrachloroethylene (PERC). As part of the coin operated laundry, I provided self-service dry cleaning and "drop-off" dry cleaning services. The PERC was used in the dry cleaning process. I used an unrelated third party (Safety Kleen Systems, Inc.) to dispose of the waste water and filters that resulted from the dry cleaning process.
3. There were no manufacturing processes on the Site (5601 N. Keystone Avenue). However, as noted above, PERC was used in self-service and "drop-off" dry cleaning services that were performed at the Site (5601 N. Keystone Avenue).
4. There were no manufacturing processes on the Site (5601 N. Keystone Avenue). However, as noted above, PERC was used in self-service and "drop-off" dry cleaning services that were performed at the Site (5601 N. Keystone Avenue).
5. There were no manufacturing processes on the Site (5601 N. Keystone Avenue). However, the waste water that was produced during the dry-cleaning process (e.g. moisture extracted from clothing) was stored in drums provided by Safety Kleen

Systems, Inc. Thereafter, the contents of the drums and filters were disposed of by Safety Kleen Systems, Inc.

6. There were no manufacturing or industrial processes on the Site (5601 N. Keystone Avenue). However, as noted above, PERC was used in self-service and "drop-off" dry cleaning services that were performed at the Site (5601 N. Keystone Avenue).
7. There were no manufacturing processes on the Site (5601 N. Keystone Avenue). However, as noted above, PERC was used in self-service and "drop-off" dry cleaning services that were performed at the Site (5601 N. Keystone Avenue). Filters provided by The E.J. Thomas Company were used to filter PERC during the dry cleaning process. However, the waste water that was produced during the dry-cleaning process was stored in drums provided by Safety Kleen Systems, Inc. Thereafter, the contents of the drums and filters were disposed of by Safety Kleen Systems, Inc.
8. There were no manufacturing processes on the Site (5601 N. Keystone Avenue). However, as noted above, PERC was used in self-service and "drop-off" dry cleaning services that were performed at the Site (5601 N. Keystone Avenue). Filters provided by The E.J. Thomas Company were used to filter PERC during the dry cleaning process. However, the waste water that was produced during the dry-cleaning process was stored in drums provided by Safety Kleen Systems, Inc. Thereafter, the contents of the drums and filters were disposed of by Safety Kleen Systems, Inc.
9. All business records are maintained for a period of seven (7) years. From February 2004 to September 2010, I purchased, stored, and treated PERC at the Site (5601 N. Keystone Avenue).
  - a. The chemical purchased, stored, and treated was PERC.
    - i. 2007 – 135 gallons;
    - ii. 2008 – 105 gallons;
    - iii. 2009 – 90 gallons;
    - iv. 2010 – 75 gallons. See attached.
  - b. To the best of my knowledge, the chemical composition of the PERC was that of a liquid.
  - c. The E.J. Thomas Co. supplied the PERC.
  - d. The PERC was used in the self-service and drop-off dry-cleaning services performed at the Site (5601 N. Keystone Avenue). The E.J. Thomas Co. employee(s) would fill PERC tank of each dry-cleaning machine (5). Thereafter, Safety Kleen Systems, Inc. employee(s) would transport and dispose of the waste water and filters.
  - e. The PERC was used each time self-service or drop-off dry-cleaning services were performed at the Site (5601 N. Keystone Avenue). The PERC was purchased periodically and placed into the PERC tank of each dry-cleaning machine (5) during the period February 2004 through September 2010. The Safety Kleen Systems, Inc. employee(s) would transport and dispose of the waste water and filters.

20. To the best of my knowledge, there is no information and/or documentation concerning inspections, evaluations, safety audits, correspondence and any other documents associated with the conditions, practices, and/or procedures at the Site concerning insurance issues.

RE: VIOLATION LETTER-FAILURE TO SUBMIT  
2009 HAZARDOUS WASTE ANNUAL MANIFEST REPORT  
TONY RAY LAUNDRY INC  
INR000006247

DEAR RICK MUSIC

Indiana hazardous waste rule IC 13-22-4-3.1 requires that generators of hazardous waste submit a report to the state by March 1, describing their hazardous waste activities for the previous year. Your company is listed in our records as being a small quantity generator of hazardous waste. In December of 2009 a reminder of the requirement to submit the hazardous waste report was sent to you.

**As of April 19, 2010 this office has not received the report from your facility. Therefore, you are in violation of IC 13-22-4-3.1.**

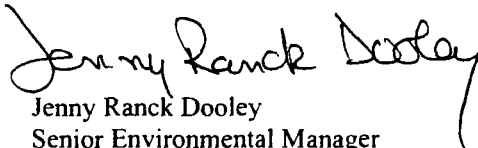

A reply must be received within thirty days of the date of this letter. Failure to respond to this letter will result in a referral to the Office of Land Quality Enforcement section.

Forms and instructions are available on the IDEM website at [www.in.gov/idem/5502.htm](http://www.in.gov/idem/5502.htm). Handler Identification forms may be obtained by contacting Jenny Ranck Dooley.

Submit your response to:

*Jenny Ranck Dooley*  
Data Services Section  
Office of Land Quality  
Indiana Department of Environmental Management  
100 North Senate Avenue, Room 1101  
Indianapolis, Indiana 46204-2251

Thank you for your attention to this matter. If you have any questions, please contact me.
